

PIONEER MEMBERSHIP

A founding offer for patients who choose to begin early.

Available to patients who commit between April 1 and July 31, 2026.

Pioneer members receive reduced first-year rates across all tiers and all payment structures. This is a one-time founding rate in recognition of early commitment to the practice.

Terms & Conditions

- Pioneer pricing applies to the first membership year only. At the conclusion of the first year, membership will automatically renew at the standard posted rate in effect at that time, unless a new contract is executed at time of renewal.
- To secure the Pioneer rate, payment must be rendered within 30 days of invoice. Failure to remit payment within this window may result in forfeiture of the introductory rate.
- Continuous membership in good standing – defined as uninterrupted payment without pause, cancellation, or material breach of the membership agreement – qualifies the member for rate lock at their enrolled tier rate for the duration of uninterrupted membership following the Pioneer Membership year.
- A lapse in membership for any reason, including voluntary pause or cancellation followed by re-enrollment, resets eligibility to standard rates in effect at the time of re-enrollment.
- For patients currently enrolled in Medicare Part B: Medicare claim submission for billable encounters will continue through December 31, 2026, concurrent with membership. No deductibles, co-insurance charges, or co-payments will be charged to member patients in good standing.
- Membership fees are payable annually, semiannually, or quarterly. Monthly payment plans are not available.
- This offer is available to new and converting patients who commit between April 1, 2026 and July 31, 2026. It is not retroactive and may not be combined with any other offer.
